CITY OF THORNE BAY  
RESOLUTION 15-11-02-01

A RESOLUTION OF THE CITY COUNCIL, ACTING AS THE PLANNING AND ZONING COMMISSION, APPROVING THE VARIANCE REQUEST BY JOHN AND JUANITA STRAM FOR A REDUCTION TO SETBACK REQUIREMENTS

WHEREAS, the City Council is acting as the Planning and Zoning Commission; and

WHEREAS, the City Clerk notified surrounding property owners of the variance request, and received no negative feedback; and

WHEREAS, the State of Alaska Land Trust Office was notified of the variance request and encroachment on their right-of-way; and

WHEREAS, the State of Alaska Land Trust Office stated they take no exception to the Stram Variance request; and

WHEREAS, the Criteria for approval is answered below:

**A. Acquired Criteria for Approval.**

1. That there are exceptional physical conditions or circumstances on the property or that would relate to its intended use or development that make the variance necessary;

**The property lines were not established prior to placement of the Foundation. The survey map presented with the applications show all existing lot corners were located for the survey with the exception of the corner that would have fallen under the constructed foundation.**

2. That the particular conditions or reasons that require the variance are not caused by the person requesting the variance;

**The Strams created the building site and had the foundation constructed prior to establishing the property line.**

3. That the strict application of the provisions of this title would result in unnecessary hardship;

**Denying the variance request will create a hardship in that the foundation would have to be removed with the expense to replace the foundation to a new location, and the building progress delayed.**

4. That approval of the variance would not be detrimental to the health, safety and welfare of other properties in the vicinity;

**The City received no negative comments from surrounding property owners, and the State of Alaska Land Trust Office stated they take no exception to the Stram Variance request. The Strams shall be responsible for any adverse impacts from the construction or use of Reprod Way Road.**

5. That the variance will not allow a land use in a zone that prohibits that particular land use;

**The variance will not allow a land use in the Mixed Residential/Commercial III zone that is not already allowed.**

6. That approval of the variance is consistent with the comprehensive plan;

**There is no conflict with the variance and the comprehensive plan.**

7. That the variance is not requested because of monetary considerations or inconvenience.

**The applicant stated that the foundation and driveway is currently in place at a cost of \$15,000 and that no variance would require them to abandon and delay their progress.**

NOW, THEREFORE, BE IT RESOLVED, that the City Council acting as the Thorne Bay Planning and Zoning Commission approves the Stram Variance request #15-11-02-01.

BE IT FURTHER RESOLVED THAT it is at the land owner's expense if Reprod Way Road needs to be widened and/or shifted in a future platting action to re-establish required setbacks for a road to be safely constructed.
