Making a lot of a lot of headway in a lot of little areas not a whole lot of headway in one, I'm kind of spread a little thin trying to get everything wrapped up. And at least get to a point where I have an understanding of all the little things that are going on throughout my area of responsibility. Want to echo the Mayor's thoughts on COVID and confirm that, to my knowledge, we have no cases within Thorne Bay. Make sure you're washing your hands again, social distancing. Keep your mask handy in case you need it. Klawock has passed a resolution requiring masks. If any council member needs to reach me, they can call City Hall and the office can reach me on through the Radio.
7) CITY CLERK REPORT:
The City of Thorne Bay is having a 'meet & greet' for our new City Administrator, tomorrow, July 31st from 1-3PM. It will be in the park to facilitate social distancing. Cupcakes & cookies will be served. Since we are not able to do more because of COVID, we are also rolling this as our “Thorne Bay Days”.

6) ADMINISTRATIVE REPORTS:
   c) City Administrator
Les Carter, City Administrator, reported the following:
The Quarantine Facility/Community Center, the funds that the city hoped to get to help with funding the center are not available. We now suggest that the City Council choose not to award the bid tonight, and refile, a new RFP, possibly with a smaller footprint maybe with a clinic. To fund this, the City would reallocate some of the funding left over from the Small Business grants that the council originally approved funding from the
CARES Grant for and put a cap on the new RFP of $433,000. By doing this, the City would not have to touch any of the Community Development Sales Tax funds.

6) ADMINISTRATIVE REPORTS:
e) City Administrator
Meetings Attended and Updates:
A. Island Wide EMS – Meeting set for Wednesday 8/12 – rescheduled (TBD) due to 5 conflicts in schedules.
B. Water Plant and Wastewater facility partial commissioning inspection is underway. We have several contractors from CBC, First City, Hatch, and others on site this week to commission individual components for the water plant. COVID-19 precautions are in place and being followed. PPE (gloves, face shields if requested, masks) measures and social distancing are being practiced as feasible.
Tasks and Projects:

A. Inventory and review of the Ambulance that has been returned by Klawock EMS – The ambulance was returned completely empty and did not have a gurney with it. It was my understanding that the unit had all appropriate supplies and a gurney on board when provided to Klawock.

B. Update 8/17/20 – I met with Mayor Nickerson and Frank (Fire Chief) who stated that the ambulance was given to Klawock in the condition in which they returned it... Empty. I explained that I was told otherwise, however I have no inventory sheets showing what the condition of the unit was when we provided it, so I have no reference to its condition other than word of mouth. They (Frank) stated that the unit had nothing in it, not even a gurney. Mayor Nickerson said that they (Klawock EMS) had done extensive repairs and maintenance to the unit in addition to supplying it with its initial load out.

Department Reports:

Streets and Roads:
Max is working on the roads throughout the South Thorne Bay subdivision. In several places around Davidson Landing he has added bulk material to the road surface and is in the process of compacting it and letting the rain settle it. Once he can make sure it is compacted, he will scrape it with the grader to smooth it to the road surface. He also graded and cleared ditches from the Highway to the “Slide Construction” area of S. Thorne Bay Rd. OVK Road crews are working throughout the subdivision as well per their prior road maintenance agreement.

Water and Sewer:
Sam and Willie are working to get the water treatment and sewage disposal facility prepped for the commissioning visit this week. Due to the rain over the weekend the wastewater facility experienced the overflowing that Sam had raised concerns over. The UV Sterilizer unit was placed too high (in elevation) and is causing a large overflow / backing up to the weirs. The Engineers on the project are aware of this issue and are working towards a resolution.

Law Enforcement:
VPSO Bosdale has begun to enforce city codes with a focus on Easements and city right of way on the roads.

Library:
The repairs to the side of the library and the shelving, made by Jim and Libby, are complete. Ty Hammons did a great job of clearing the construction waste and even found some recycled paint that closely matched the blue of the library. He painted it and did a great job.
