- We were notified yesterday morning by Jenni Redding that our website had been compromised. I contacted Matt Gore, the IT director for SISD, and requested his assistance with how to repair it. We reached out to GoDaddy and purchased the 3-year Advanced Website Security package from them for the cost of \$503.75.
- GoDaddy spent the evening going through our website to find where the malware got in, removed suspicious files and provided us with a report of items to fix. As part of the website security package, they will continue to scan the website every 12-hours to search for viruses and malware. Create complete backups our website, restore corrupted files, and provides the SSL Certificate.
- We were ensured that no credit card information was accessible through our Payeezy payment gateway on the website.
- Today the site was down while GoDaddy finished installing the SSL into the new firewall that is protecting the website.

c) Department Reports:

➤ Water/Wastewater:

Sam Sawyer, Water and Wastewater Supervisor

- Water / Wastewater trainings over the past two weeks.
- Today they were dealing with a leak on mainline coming from lake – working on this now
- Shut sewer plant down because everything is freezing up
- Freezing warning -
- Follow these steps to help prevent frozen water pipes.

1. **Keep Water Flowing** . If any of your indoor faucets are located on exterior walls that aren't adequately insulated, set your faucets to a slow drip

whenever temperatures dip well below freezing. This is usually necessary only during especially bitter cold spells. Faucets and pipes located along exterior walls are especially susceptible to freezing. **For maximum effectiveness**, make sure both the hot and cold lines are opened slightly since both are vulnerable. Also, consider leaving cabinet doors open so your pipes will be warmed from the room air.

2. **Disconnect and drain garden hoses.** Disconnect and drain the garden hose connection. This will help prevent outside faucets and pipes from freezing, leaking or breaking.³
3. **Cover exposed pipes.** Cover water pipes (both indoors and out) with insulating foam covers or heating tape. Close outside vents, crawl spaces and doors so cold air doesn't seep inside.
4. **Locate The Shut-off Valves.** Place a tag on the main shut-off valve. Make sure everyone in the house knows where it is and how to operate it in an emergency.

➤ **Solid Waste:**

- Will be open half day on Friday, Christmas Eve, Dec 24th, and all-day Christmas day, Saturday this week
- Closed on Friday and Saturday next week (New Year's Eve and day)
- Parts for Wire tie repairs have been ordered and are on their way

➤ **Harbor,**

- Most of the harbormaster efforts have turned to snow maintenance since the weather hit. I am focusing on safety and protecting our harbor structures while removing as much build up as possible.
- There has been little activity in the harbor as far as transient moorage or new slips being issued. Most boats have been pulled for the season.
- Two derelict vessels will be going up for auction, hopefully next week. They include the Sienna in the main harbor and a wooden skiff at Davidson. The wooden skiff will be towed to north side and pulled out of the water where it will sit at the Sortyard until sale.
- I am working to issue a limited amount of parking permits for Davidson, then all other trailers and vehicles sitting over there will be ticketed and removed.
- I am waiting on word from the electrician about getting the walkway and parking lot lights returned to working order at Davidson.
- I have spoken with Sadhu about fixing the slide plate on walkway at Davidson, which is a slip hazard in wet conditions. We're going to pull the plate off, weld some treads across it and reattach all in a few hours next week.
- Everything else is business as usual.

- **EMS:** Received two new applications for responders over the past two weeks.
- **Fire/VPSO:** Good news! Volunteer assistance grant has been approved to be looked at. It is for \$5,000.00, to purchase items like portable pumps, etc.
 - Fire Department meeting on Southside last week. Myself and one other person showed up. With that extra hand we were able to get the fire truck set up. Meetings are on the third Wednesday of each month and alternate between North and Southside.
- **Streets:**
 - Have a new F550 at the Solid Waste Facility, a new sander is on the way and working on the plow to purchase and placed on the truck.
 - If we are going to have winters like this moving forward, we do need covered area for the sand.
- **Parks & City Events:**
 - AJ Jennings:**
 - Christmas Dinner a hit – Thank you to the Thorne Bay School: Johanna Schneider, Amy Jennings, boys basketball team for serving, school kids for decorations, Laura and Charles Jennings for Santa and Mrs. Santa.
 - Still waiting on APT to come and put up the new lights on the light poles.
- **Library**
 - We have internet at Davidson Landing! Working within a cooperative partnership with The City of Thorne Bay, Southeast Island School District, and the Thorne Bay Public Library, I am proud to announce that we were one of only 8 selected in the entire state of Alaska. Through the Emergency Connectivity Fund, we have internet through at least June 30th, 2022. There is talk that there may be another grant next year to cover going forward. There is no cost to the city. SISD's Technology Director, Matt Gore has been the techno-genius behind getting this up and running! You can find the open access point, named Davidson Landing, by parking near the red building down by the harbor. Please, please do not block the green building's big roll up doors at ANY time. This is brand new internet and will not affect the Thorne Bay Library in any way. Congratulations to the South Thorne Bay population, students and those needing internet!
 - Another grant! This time an ARPA Grant, worth \$2500 in new books, and \$3500 for brand new technology equipment for the new Library we hope to have open soon. Professional Zoom equipment, inside and outside antenna, new modem.... it's going to increase the internet to a more useable amount and speed and a better coverage area!
 - During our shut down time, I have been writing authors asking for donations,

and they are coming in!

- There is also the PLAG Grant written during our time closed. The Public Libraries Assistance Grant will keep our doors open and give us money for books and programming.
- Thank you for your patience, it's been a long road. Even though the doors are closed right now, we are still working for our community. I'd love to hear from the community on any book series they would like to have in our library and as soon as we can get opened up, we will be looking for volunteers. Don't forget about the DIGITAL LIBRARY, it works much like a free Kindle. Books and audio books can be downloaded at either site, its 100% free to patrons, paid for by Library funds, and the Friends of the Thorne Bay Library! Contact Laura Clark with questions.
- Friends of the Library received a \$50,000.00 ARPA grant that will pay for a new covered porch area on the new library.
